Professor: "Mr. M., what is the answer to the second question ?" Mr. M. (after waiting m vain to be prompted):" Nobody seems to know. professor." - College Mercury. A gentleman saw an old highhander one day

fishing with a bent pin. He said to the man : Fish will never be caught with that." "Aye, LOWEST CURRENT RATES they will, the man replied, "if they'll only take it into their heads."

"Is heaven a state, do you think?" inquired Mrs. Fitzjoy of Mr. Toplofty. "Aw, I weal!v don't we collect. My impression is that it is only a tewwitowy, aw." Theological geography was immediately dropped.

Teacher-"Suppose that you have two sticks of eardy, and your big brother gives you two more how many have you got then?" Little boy (shaking his head)-"You don't know

him. He ain't that kind of a boy." A boyish novice in smoking turned deadly pale and threw away bis clgur. Said he: "Thar's similain' in that air cigar that's made me sick."

"I know what it is," said his companion, pulling away. "What ?" "Tobachet."

THE OPIUM HABIT.

Most of us kuite the opium-eater duly in lit-

tte use as "The Impending Danger." The

physician of a home for inebriates in Chicago

was moved recently, by the great increase with-

in the past five years of eases of opium biebri-

ety brought to him for treatment, to gather

such statistics of the habit as were attainable.

He began by interviewing fifty druggists doing

doing business among the various classes of

population and in different parts of that city.

and followed up the clues thus obtained by a

their sex, their nativity, their age, their social

relations, their occupation, causes that led to

doned women there still remained twice as

many women as men. Out of the 215 cases 1th)

Comman-a fact which doubtless fluds its ox-

planation in the greater nervousness of the

American, and the tendency of the German to

seek relief from pain and trouble in the stupor

of beer In age, so far as figures could be asecr-

tained, the majority were found to be between

thirty and forty years. As to social standing

few were found to belong either to the wealthy

or the poverty stricken classes, the sinjurity

were of the mildle class. Most were or bud

been married, not a few of the latter having

separated from husband or wife because of the

most of the men were in business callings, as

distinguished from the professions on one hand

and manual labor on the other- showing,

again, that this is specially an American and

. It was not easy in many cases to get at the

causes which led to the habit. Eight wild

PATTERSON

Three sots Reeds, 5 Octaves, 13 Stops. Dimensions: Height, 74 in; Width, 48 in; Depth, 24 in. Two Knee Swells. The case is of solid Black Walnut, tastefully ornamented with handsome Mottled French Walnut Panels, which, being highly finished, contrast admirably with Dark Walnut of Case. The tone is remarkable for purity and sweetness, combined with volume, variety and brilliancy. The touch is quick, responsive and pliant, and, in fact, the whole instrument, in action and case, has every requisite of the meet peried Parlor Organ. Each instrument board and delivered on cars here for

Lictory, team wass rollers, etc., have all failed in one or more of the three essential points, namely the saving of labor, wour and tear of clothes, or invested in a property of the saving of labor, wour and tear of clothes. u imperfectly extracting the dirt and discolors

WHAT IS IT REMOVES THE DIRT!

You may ask washer women and housekeepers, and your answer from gine out of ten will be. Henry of cloow greams," or, in other words, laborrous rabbing upon the wash-board. And such is the case: for you first rub soap upon the cloth, and then you have to rob it in the make the dirt soluble; but does that remove it? No: 10 do that you must first dip it into the water and rub renestedly to force water through the fabric, again and again. That is what removes dirt after having been softened by the chemical action of the Library Magazine, 10 cie. a No., St & year. Library Nagazine, bound volumes, 65-ste. ... way in which this could be most economic

ally accomplished has been developed in the Family Washer and Bleasher, which embodies all the above points. THE PRINCIPLE OF THE WASHER AND

embodies all the essential points. First, we have the desired best writes expands the fabric and the desired heat which expands the fairly and causes it to discharge the dirt. Second, we obtain a powerful suction beneath the clothes, which produces a rapid downward current or water force, through and through them, thereby removing the dirt. Third, we use a large body of water, which holds the cirt in solution. Fourth, we use but a small quantity of scope. Fifth, the washing is done by water, and not by steam.

HE PHILOSOPHY OF THE WASHER AND BLEACHER IN THIS. We have 5 lbs. of metal, which attains a much we have 5 to of metal, which attains a miner greater degree of heat than the water surremained it, consequently the water underneath the Washer becomes hotter and more expansive than in any other part of the boiler, and is thereby thrown to the surface through the tube at the rate of six to eight gallons peo minute, thus tending to produce a vacuum underneath the Washer at the bottom of the bofler, into which the water is rapidly drawn.

THE IMPROVED WASHER has a perfect fitting pipe, and is a combination :

metals which does not become sticky or dirty. TUR CAPACITY OF THE WASHER AND There are two sizes—No. 1 the Family size; No. 2, suitable for small hotels, restaurants, and barber shops, boarding-houses, etc.

The Washer is composed of metal and senset get out of order.

It will work in any flat bottom boiler. It takes only three or four ounces of soap in ten or twelve gailons of water, and will wash bed or table lines, a boilerful in ten or fifteen minutes, wearing apparel in from ten to thirty minutes. Use no chambeals—only geod soap and soft water. For Lace Curtains this Washer is invaluable. It cleanses them as no other process can without the

No. 2 of small hotel size will wash of average pieces 1,500 to 2,300 per day.

THE INDUCEMENTS WE OFFER. We want a local agent in every town in the Unit We want first-class men as General Agents - wee capable of managing one or more counties.
